

Are you struggling to keep your schools technology up-to-date?

We know that you need access to the latest technology so that teachers can prepare students for current University and workplace environments.

However, we understand that funding this technology can be a challenge for some schools and means you are left with old technologies that are worthless and not-fit-for-purpose after a few years.

Classroom in a BOX is our solution to this problem.

We have created a simple solution which you subscribe to monthly.

Starting from as little as

£8.50

per pupil,
per month

The great thing is how flexible it can be. We can change Classroom in a BOX to fit your institution's requirements for devices and budget.

What are the benefits of Classroom in a BOX:

- ☐ You can spread the cost of the latest technology over two to four years.
- ☐ Flexible payment terms which suit your school budgets.
- ☐ Hardware, software and services can be bundled to save on the cost.
- ☐ Predictable monthly/quarterly payments so you can plan IT spend.
- ☐ More efficient assets and lifecycle management so you aren't left with old equipment.
- ☐ Fewer maintenance problems, thanks to newer equipment and warranty cover.
- ☐ You decide at the end of your contract to either return or keep the equipment, whichever is more cost effective.

Don't waste any more time worrying about your technology. Contact our Education Consultants today.
