

Keep your kids entertained

with fun tech clubs from your local Apple experts

The clubs will boost the digital skills of children aged six and over with activities in creativity and coding, including:

Learning to code

Programming a robot

Creating your own movie

Making a hit track

When?

Sessions last one hour and will run throughout the summer term and during the summer holidays

Where?

Sync Store
63 Deansgate
Manchester
M3 2BW

For more information and to sign up for a session search for **GBM Education Team** on **Eventbrite.co.uk**

All sessions will be run at Sync Store in partnership with GBM Apple Solution Expert for Education. There also will be complimentary refreshments for parents to enjoy while their children get to grips with the possibilities of Apple tech. iPads are provided for all the sessions.

There's something for everyone...

Coding clubs

Learn to code

This exciting session will teach kids how to use Swift Playgrounds, a real programming language created by Apple, giving them the skills they need to build their own apps.

Programme your own robot

This challenging yet fun session will see children learn how to programme a spherical robot and use an iPad to guide their own real-life robot through a maze.

Creative clubs

Video with iMovie

This session will teach children how to produce their very own film trailer from scratch. They will come up with fun film ideas, learn basic camera techniques and how to shoot footage using the iPad, before creating a professional movie trailer using the iMovie app.

GarageBand

For children with an interest in music, this session will be unmissable. Using the iPad, kids will get to grips with creating their own beats using a range of instruments. By the end of the session, they'll know how to record their own rock, hip hop or EDM track.

All sessions are run by experienced Apple experts from GBM.
